

## ECORIB

Our **EcoRib™** line channels water and traps wet and dry dirt. Designed for both exterior and interior entryways, **EcoRib** can be used in conjunction with **EcoMax™** in entrances subjected to heavy soiling.

Constructed of solution-dyed fibers, **EcoRib** offers unmatched durability and performance with superior quality, beauty and sustainability.

### SPECIFICATIONS

Graphic Method	Inlaid
Face Weight	52 ounces per square yard
Total Weight	152 ounces per square yard
Construction	Needlepunch
Backing	*EnviroCel™ - high performance polyurethane backing (60-70% green by backing weight) *BioGrip™ - 100% PET (post-consumer recycled fleece with 70% non-skid natural rubber compound layer)

Edging	1 1/2" w x 1/2" h ADA Compliant Custom Edging
Mat Profile	1/2" (13mm)
Face Fiber	100% Solution Dyed UV-Stabilized Polypropylene
Testing	Passes - DOCFI-70 Pill Test
Anti-Static	Yes
Durability	Industrial
Warranty	5 Year
Production Time	2 Weeks after Signed Art Proof

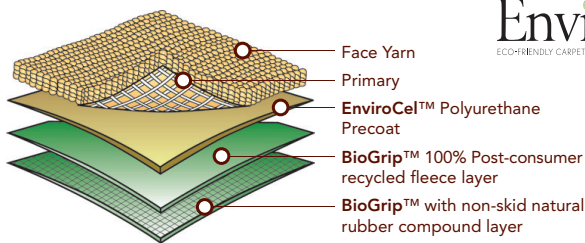

### Green Performance Benefits

#### EnviroCel™ High Performance Polyurethane Backing

**EcoClassic**, **EcoRib**, and **EcoMax** are all backed with **EnviroCel** polyurethane backing systems for commercial carpet that contain recycled, recovered, and renewable materials and are 60% to 70% green by backing weight. **EnviroCel** replaces large percentages of petroleum-based components in its polyurethane chemistry with biobased polyols made from soybean plants. **EnviroCel** also contains Celceram®, a recovered pre-consumer recycled mineral compound that adds to the product's environmental and performance benefits.

- **EnviroCel** is third-party certified for recycled and renewable materials and contributes to LEED totals.
- **EnviroCel** qualifies for Federal purchasing preference under the USDA's BioPreferred<sup>SM</sup> program. (GSA SIN31-601)

**EnviroCEL**  
Eco-FRIENDLY CARPET BACKING

### Cradle to Cradle Guarantee

When a replacement order is made at the end of a customer's defined period of use, we gladly take back the discarded **EcoPath™** matting and recycle it into other high-quality product components such as **AstroTurf®** infill and recyclable carpet and mat backing. This regenerative process is **EcoPath's** cradle to cradle guarantee and our promise to the environment.

### BioGrip™ SAFETY SURFACE

Maximized non-skid performance with natural rubber. The protective fleece layer is 100% post-consumer recycled plastic bottles (PET terephthalate polyester).

### MOISTURE RESISTANT BACKING

- Maintains non-skid traction
- Floors stay dryer, no staining

All our products are made in the U.S.

EcoPath™, ToughMat™ and BrushMat™ are products of Engineered Conversion Systems. EcoPath™ and BioCel™ are registered trademarks of Engineered Conversion Systems.
